7.0 Rejection of Application / Termination of Registration

Sime Darby Plantation reserves the right to reject, suspend or terminate any application/registration without any notice and without assigning any reasons. However, for your awareness, the typical reasons are, but not limited to:

Application rejection:

- Incomplete information submitted
- False information provided (after verification)
- Non-signing of the Vendor Integrity Pledge (VIP) for any reason whatsoever
- Supplier is already blacklisted by Sime Darby Plantation

Registration suspension:

- Supplier withdraws a bid or refuses to accept an award (after bidding for the same)
- Supplier assigns or sub-contracts the awarded contract to another company without prior approval of Sime Darby Plantation

Registration termination:

- Abandonment of a contract/LOA/PO or failure to carry out terms of contract/LOA/PO other than due to force majeure reasons
- Unethical conduct and practices including breaches of law by vendors' employees (including, without limitation, breaches of bribery and corruption laws), regardless whether such conduct and practices were in relation to Sime Darby Plantation or its business. This includes but is not limited to possession of firearms and drugs or pilfering of the Sime Darby Plantation's property.
- Non-adherence to the VCOBC or VIP.
- Persistent non-compliance with safety and environmental regulations
- Involved in legal suits against Sime Darby Plantation
- Any other reason as may be determined by the top management from time to time.

Suspension of vendor profile means that vendor will temporarily not be able to participate in any new invitation to quote or tender but will need to continue carrying out their existing commitments. Suspension will entail vendors to comply with conditions for performance improvement – to be agreed upon on a case-to-case basis with input from both procurement team and contract owner or end user. Persistent failure to meet the conditions to improve performance may lead to termination of vendor profile from OVR portal and blacklisting from Sime Darby Plantation's Registered Vendor List. This may also potentially lead to LOA / purchase order / contract termination.

8.0 Account Purging

In accordance to the Personal Data Protection Act 2010 (PDPA), Sime Darby Plantation will purge the personal information submitted by vendors via this online application portal once the information has no further business use to Sime Darby Plantation i.e. online applications which have been left idle and included in the scope outlined below will be deleted from the system. This auto-purging would also serve as a form of portal house-keeping to remove any duplicate or invalid accounts from the system.

The scope of vendors to be included in auto purging (auto deletion):

- a) Vendor who is in “Draft” mode, has not logged into the system in the past 90 days and has never submitted the application.
- b) Vendor who is in “Draft” mode, has not logged into the system in the past 90 days and has been sent a Request for Info (RFI) due to an incomplete submission.
- c) Rejected vendors, in line with the Personal Data Protection Act (PDPA), who have not attempted to re-apply within 90 days of rejection.
- d) Vendors with Expired registrations, who have not attempted to renew their application within 180 days from the date of expiry.

A warning email will be sent to the vendor 30 days prior to actual account purging to provide ample time for vendors to re-activate their online profiles if they wish to continue with the application. To re-activate the account, vendors need only log in to their online profiles. It is advised that if the vendor is keen on continuing the application process, the online profiles should be re-visited, completed according to the requirements and submitted to Sime Darby Plantation for further evaluation and processing as soon as possible.

If no action has been taken (the account is left idle) and the online profile falls within the scope mentioned above, the account will be automatically purged (deleted) from the system.

If the vendor account has already been purged and yet the vendor wishes to continue with the application, said vendor would need to re-start the application process from the very beginning and **another re-registration fee** is required. Refer to the “Application Fee” tab on the online application for the correct amount to be paid.
